

## Cross-curricular Themes

### GEOGRAPHY

#### Investigating the area

- Awareness of Golden Valley in relation to the school
- Use maps with symbols to represent a place
- Use appropriate geographical language (e.g. valley, escarpment)
- Describe features both physical and human
- Share reasons and views about the site
- Offer explanations for some of the features
- Explore similarities and differences between localities and share ideas
- Locate the site in relation to other familiar places, plan routes; give directions; take photographs; draw maps
- Describe physical and human processes and how these have changed the site and the activities and lives of local people, and local productivity
- Recognise differing views held by people. Put forward own views. Use primary and secondary sources of evidence to back-up ideas.
